

SUBSTANCE

KNOW YOUR TERPENES

HOPPY

Studies found that the strain Train Wreck had contained .33% caryophyllene. May help treat anxiety and depression. Found in hops, pepper and oregano.

CARYOPHYLLENE

PREVENTS ANXIETY
ANTI-INFLAMMATORY
RELIEVES PAIN

LIMONENE

STRESS RELIEF
ANTI-DEPRESSION
WEIGHT LOSS

Super Lemon Haze gets its aroma from Limonene. It's used to promote weight loss, prevent and treat cancer, and treat bronchitis. Found in citrus fruits and other plants.

CITRUS

LINALOOL

ANTI-INFLAMMATORY
RELIEVES PAIN
AIDS SLEEP

A lab tested samples of Amnesia Haze and showed slightly over 1% linalool. Helps modulate motor movements and used to help treat liver cancer. Found in lavender, laurel and mint.

FLORAL

ALPHA-PINENE

ENERGY BOOSTER
HELPS ASTHMA
AIDS MEMORY

One study examined 16 marijuana plants and found all the strains contained notable amounts of alpha-pinene. It can be found in orange peel, pine and parsley.

PINE

EUCALYPTOL

ANALGESIC
COUGH SUPPRESSANT
ANTIBACTERIAL

Most cannabis strains contain eucalyptol, however, it's typically in small amounts. Eucalyptol's used in a variety of products including mouth wash and baby powder. It can be found in bay leaves, sweet basil and rosemary.

SPICY

MUSKY

A study found that most strains they tested contained high levels of myrcene. Contribution to the tired feeling often attributed to indica. Myrcene can be found in hops, mango, and lemongrass.

MYRCENE

ANTI-INFLAMMATORY
MUSCLE RELAXER
SEDATIVE

CAMPHENE

ANTI-FUNGAL
ANTIOXIDANT
ANTIBIOTIC

Lab testing found high concentrations of camphene in indica strains. Also used in perfumes and food additives. Camphene conveys the aroma of fir needles and wood.

WOOD
